Comprehensive Prescription Drug Formulary

(List of Covered Drugs)

FOR THE BASIC AND ENHANCED MEDICARE Rx OPTIONS

A formulary is a list of drugs a plan covers. Each plan has its own formulary. All formularies are similar because they're based on federal guidelines but they may not include exactly the same drugs. Be sure to compare formularies when selecting a plan.

This Comprehensive Formulary provides a listing of the medications that are covered under HOP's Basic and Enhanced Medicare Rx Options (Employer PDP) as of February 1, 2010. For a complete, updated formulary, please visit www.HOPbenefits.com or call Prescription Solutions at 1-888-239-1301, 24 hours a day, 7 days a week.

Frequently Asked Questions

What Is A Formulary?

A formulary is a list of drugs selected by HOP in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. HOP will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a HOP network pharmacy, and other Plan rules are followed.

Please note that this formulary covers the HOP Basic and Enhanced Medicare Rx Options only. If you have coverage through a Medicare Advantage plan through HOP, you will have to contact the Medicare Advantage plan directly for a copy of the formulary for your prescription drug plan.

Can The Formulary Change?

Yes, HOP may add or remove drugs from our formulary during the year. The enclosed formulary is current as of February 1, 2010. To get updated information about the drugs covered by HOP, please visit our Web site www.HOPbenefits.com or call Prescription Solutions at 1-888-239-1301, 24 hours a day, 7 days a week. TTY/TDD users can call 1-800-498-5428. If we remove drugs from our formulary or add prior authorization, quantity limits and/or step therapy restrictions on a drug, we must notify members who take the drug at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food And Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

Note to existing members: The Plan features have changed since last year. Please review this document carefully.

How Do I Use The Formulary?

There are multiple ways to find your drug within the formulary:

- **Medical Condition**

The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Medications.” If you know what your drug is used for, look for the category name in the list that begins on page 5. Then, look under the category name for your drug.

- **Alphabetical Listing**

If you are not sure what category to look under, you should look for your drug by name in the alphabetical list that begins on page 20. Both brand-name drugs and generic drugs are listed alphabetically.

- **Medicare-Excluded Drugs Covered under the Enhanced Medicare Rx Option Only**

In addition to the Basic Medicare Rx Option formulary coverage, HOP will cover some Medicare-Excluded Drugs under the Enhanced Medicare Rx Option. The list of Medicare-Excluded Drugs only covered under the Enhanced Medicare Rx Option begins on page 34.

How Much Will I Pay For Drugs Covered By HOP?

Please review your member materials available from HOP for a full description of how much you will have to pay for HOP-covered drugs, including copays, coinsurance, coverage gap and catastrophic coverage levels under both the Basic and Enhanced Medicare Rx Options. Member materials are available on our Web site www.HOPbenefits.com or by calling Prescription Solutions at 1-888-239-1301, 24 hours a day, 7 days a week. TTY/TDD users can call 1-800-498-5428.

If you are qualified for extra help with your drug costs, your costs for your drugs may be different from those described in the materials. Please refer to your Evidence of Coverage or call Prescription Solutions Customer Service at 1-888-239-1301 to find out what your costs are.

Are There Any Other Restrictions On Coverage?

When you are starting a new maintenance medication, you are required to try a starter dose—not to exceed 33 days—before a larger quantity of the medication will be covered. This initial supply should be sufficient for you and your doctor to determine if the new medication is having the anticipated results without detrimental side effects.

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization (PAR):** HOP requires you to get prior authorization for certain drugs. (You may need prior authorization for drugs that are on the formulary or drugs that are not on the formulary and were approved for coverage through our exceptions process.) This means that you will need to get approval from HOP before you receive coverage for these designated drugs.
- **Quantity Limits (QLL):** For certain drugs, HOP limits the amount of the drug that will be covered for each covered claim. For example, HOP covers 30 tablets per covered prescription for Lipitor 10 mg.
- **Step Therapy (ST):** In some cases, HOP requires you to first try certain drugs to treat your medical condition before coverage will be extended for another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, HOP may not cover Drug B unless you try Drug A first. If Drug A does not provide a desired result, HOP will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 5. You can ask HOP to make an exception to these restrictions or limits. See the section, “How Do I Request an Exception to the HOP Formulary?” below for information about how to request an exception.

What Is A Specialty Drug (SP)?

A specialty drug is generally a high-cost medication (\$600 or more for a one-month supply) used for a complex life-threatening condition. Typically, there is no generic substitute or equivalent treatment available.

What If My Drug Is Not On The Formulary?

If your drug is not included in this formulary, you should first contact Customer Service and ask if your drug is covered. You can contact Prescription Solutions Customer Service at 1-888-239-1301, 24 hours a day, 7 days a week. TTY/TDD users should call 1-800-498-5428. If you learn that HOP does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by HOP. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by HOP.
- You can ask HOP to make an exception and cover your drug.

How Do I Request An Exception To The HOP Formulary?

You can ask HOP to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover your drug if it is not on the HOP formulary.
- You can ask us to waive coverage restrictions or limits on your drug.

Generally, HOP will only approve your request for an exception if the drugs included on the Plan’s formulary would not be as effective in treating your condition.

You should contact us to ask for an initial coverage decision for the formulary or utilization restriction exception. When you are requesting a formulary or utilization restriction exception, you should submit a statement from your physician supporting your request. Generally, a decision will be made within 72 hours of your written request.

What Are Generic Drugs?

HOP covers both brand-name drugs and generic drugs. A generic drug has the same active-ingredient formula as the brand-name drug. Generic drugs cost less than brand-name drugs and are approved by the Food and Drug Administration (FDA). Both the Basic and Enhanced Medicare Rx Options cover all generic drugs in covered categories.

Generic drugs are listed in lower-case within the formulary starting on page 5. Brand-name drugs are capitalized in the formulary. If a generic form of your brand medication is listed, but not the brand name, it means the brand form requires you to pay the difference in cost to receive coverage by HOP.

For More Information

For more detailed information about your HOP prescription drug coverage, please review your *2008 Summary of Benefits* and other Plan materials. If you have questions about the HOP drug program, please call Prescription Solutions Customer Service at 1-888-239-1301, 24 hours a day, 7 days a week. TTY/TDD users should call 1-800-498-5428, or visit www.HOPbenefits.com. If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227), 24 hours a day, 7 days a week. TTY/TDD users should call 1-877-486-2048, or visit www.medicare.gov.

HOP Formulary

The formulary that begins on page 5 provides coverage information about some of the drugs covered by HOP. If you have trouble finding your drug in the list, turn to the alphabetical list that begins on page 20.

The codes printed in blue next to a drug name indicate that HOP has special requirements for covering that drug.

Medicare-Excluded Drugs Covered Under The Enhanced Medicare Rx Option Only

- Prescription agents used for the symptomatic relief of cough and colds—the list of drugs can be found on the Web at www.HOPbenefits.com.
- Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations—the list of drugs can be found on the Web at www.HOPbenefits.com.
- Barbiturates—see list on page 34.
- Benzodiazepines—see list on page 34.
- Erectile dysfunction drugs—see page 34.

Prescription Drug Formulary (Listed by Medical Condition)

These drugs are covered under both the Basic and Enhanced Medicare Rx Options.

GENERIC DRUGS are listed in italic lowercase letters and generally require a \$7 copay for up to a 33-day supply (and a \$21 copay for a 34- to 90-day supply) until expenses reach the Coverage Gap.

BRAND-NAME DRUGS are listed in CAPITAL LETTERS.

- In Initial Coverage, you'll pay 30% of the cost for all covered brand-name drugs. The most you will pay for an 84- to 90-day supply will be \$75.
- In the Coverage Gap, if you are enrolled in the Enhanced Medicare Rx Option, you'll pay 50% of the cost for all covered brand-name drugs until the Plan's payment maximum is reached (\$100 for up to an 83-day supply; \$300 for an 84- to 90-day supply).

G: A generic is available for at least one or more strengths of the brand-name drug.

SP: Specialty Drug, which means you pay 33% of the cost until expenses reach the Coverage Gap.

INJ: Available in injectable form only.

PAR: Prior authorization may apply.

QLL: Quantities dispensed may be limited for proper use.

ST: Step Therapy may apply, which means you may be required to try a traditional treatment before the Plan will cover this medication.

Enhanced Medicare Rx Option

The following are the Medicare Excluded Classes of Drugs that are covered under the Enhanced Medicare Rx Option **in addition** to those shown previously:

- Barbiturates (review the list of drugs below)

<i>alkabel-sr</i>	<i>butalbital compound</i>	FIORICET W/CODEINE	PHRENILIN
<i>americet</i>	<i>butalbital/apap/caffeine</i>	FIORINAL	PHRENILIN FORTE
AMYTAL SODIUM	<i>butalbital-asp-caffeine</i>	FIORINAL W/CODEINE	PHRENILIN W/CAFF/ CODEINE CP
<i>anolor</i>	BUTISOL SODIUM	<i>fortabs</i>	<i>promacet</i>
<i>antispas</i>	<i>cephadyn</i>	<i>geone</i>	PYRIDIUM PLUS T
<i>antispasmodic</i>	<i>colidrops</i>	<i>haponal</i>	<i>quala-cet</i>
<i>apap/butalbital</i>	DOLGIC LQ	<i>hyosophen</i>	<i>repan</i>
<i>ascomp w/codeine</i>	DOLGIC PLUS	<i>lahey mixture #3</i>	<i>repan-cf</i>
AXOCET	DONNATAL	LUMINAL SODIUM	SECONAL SODIUM
BARBIDONNA	DONNATAL	<i>margesic</i>	<i>sedapap</i>
<i>belladonna/phenobarb</i>	EXTENTABS	<i>marten-tab</i>	<i>spastrin</i>
<i>bellamine</i>	<i>eperbel-s</i>	MEBARAL	<i>tencet</i>
<i>bellamine-s</i>	ERGOCAFF-PB	<i>medigesic</i>	<i>tencon</i>
<i>bellaspas</i>	ESGIC	MYSOLINE	TRIAD
<i>bellatal er</i>	ESGIC PLUS	NEMBUTAL SODIUM	URELIEF PLUS
<i>bel-tabs</i>	EZOL	PENTOTHAL	ZEBUTAL
BREVITAL SODIUM	<i>farbital</i>	<i>phenazopyridine plus</i>	
<i>bupap</i>	FIORICET	<i>phenobarbital sodium</i>	

- Benzodiazepines (review the list of drugs below)

<i>alprazolam</i>	DIASTAT	<i>lidox</i>	PROSOM
ALPRAZOLAM	DIASTAT ACUDIAL	LIMBITROL	RESTORIL
INTENSOL	<i>diazepam</i>	LIMBITROL DS	SERAX
ATIVAN	DORAL	<i>lorazepam</i>	<i>temazepam</i>
CEBERCLON	<i>estazolam</i>	LORAZEPAM	TRANXENE SD
<i>chlordiazepoxide</i>	<i>flurazepam hcl</i>	INTENSOL	TRANXENE T-TAB
<i>clidinium/cdp</i>	HALCION	<i>midazolam hcl</i>	<i>triazolam</i>
<i>clonazepam</i>	KLONOPIN	NIRAVAM	VALIUM
<i>clorazepate</i>	LIBRAX	<i>oxazepam</i>	VERSED
DALMANE	LIBRIUM	PAXIPAM	XANAX
			XANAX XR

- Erectile dysfunction drugs: Cialis, Levitra, and Viagra
- Prescription agents when used for the symptomatic relief of cough and colds—the list of drugs can be found on the Web at www.HOPbenefits.com.
- Prescription vitamins and mineral products except prenatal vitamins and fluoride preparations—the list of drugs can be found on the Web at www.HOPbenefits.com.

These additional drugs covered under the Enhanced Medicare Rx Option do not count toward your Medicare TrOOP (True Out-of-Pocket).

EFFECTIVE FEBRUARY 1, 2010R
CMS CONTRACT NUMBER: E3014
