

# Health Options Program

## Abridged Gold5 Prescription Drug Formulary for the Medicare Standard Rx Option

*(Partial List of Covered Drugs; also called the Drug List)*

# 2025

**PLEASE READ:** THIS DOCUMENT CONTAINS  
INFORMATION ABOUT SOME OF THE DRUGS  
WE COVER IN THESE PLANS.

This Abridged Prescription Drug Formulary for the Medicare Standard Rx Option (PDP) was updated on July 30, 2024. This is not a complete list of drugs covered by our plans. For a complete listing or other questions, please call the HOP Administration Unit at 1-800-773-7725, or for TTY users, 1-800-498-5428, 8:00 a.m. to 8:00 p.m. ET, Monday–Friday, or visit HOPbenefits.com.

**Important Message About What You Pay for Vaccines** – The **Medicare Standard Rx Option** covers most Part D vaccines at no cost to you, even if you haven't paid your deductible. Call the HOP Administration Unit for more information.

**Important Message About What You Pay for Insulin** – You won't pay more than \$35 for a one-month supply of each insulin product covered by the **Medicare Standard Rx Option**, no matter what cost-sharing tier it's on, even if you haven't paid your deductible.

**Note to existing members:** This Formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (formulary) refers to "we," "us," or "our," it means the Health Options Program, which is sponsored by the Pennsylvania Public School Employees'

Retirement System. When it refers to "plan" or "our plan," it means the Medicare Standard Rx Option.

This document includes a partial Drug List (formulary) for our plans, which is current as of July 30, 2024. For a complete, updated Drug List (formulary), please contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2026, and from time to time during the year.

### **What is the Medicare Standard Rx Option Abridged Formulary?**

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by the Medicare Standard Rx Option in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. The Medicare Standard Rx Option will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription

is filled at an OptumRx network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your *Evidence of Coverage*.

This document is a partial formulary and includes only some of the drugs covered by the Medicare Standard Rx Option. For a complete listing of all prescription drugs covered by the Medicare Standard Rx Option, please visit our website at HOPbenefits.com or call us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

*Please note that this formulary covers the Medicare Standard Rx Option only. If you have coverage through the Medicare Plus Rx Option or a Medicare Advantage plan through the Health Options Program, you will have to contact the HOP Administration Unit or the Medicare Advantage plan directly for a copy of the formulary for your prescription drug plan.*

### **Can the formulary change?**

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: HOPbenefits.com.

**Changes that can affect you this year:** In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section titled "How do I request an exception to the Medicare Standard Rx Option's Formulary?"

Some of these drug types may be new to you. For more information, see the section below titled "What are original biological products and how are they related to biosimilars?"

- **Drugs removed from the market .** If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product, or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization,

quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 30-day supply of the drug and notice of the change.

If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section entitled "How do I request an exception to the Medicare Standard Rx Option Formulary?"

**Changes that will not affect you if you are currently taking the drug.** Generally, if you are taking a drug on our 2025 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2025 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of July 30, 2024. To get updated information about the drugs covered by the Medicare Standard Rx Option, please contact us. Our contact information appears on the front and back cover pages. In the event of midyear formulary changes, a revised Comprehensive Formulary for the Medicare Standard Rx Option will be posted to HOPbenefits.com.

### ***How do I use the formulary?***

There are two ways to find your drug within the formulary:

- **Medical condition**

The formulary begins on page 1. The drugs in this formulary are grouped into

categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category "Cardiovascular Agents." If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

- **Alphabetical listing**

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 17. The Index provides an alphabetical list of all the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index, and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index, and find the name of your drug in the first column of the list.

### ***What are generic drugs?***

The Medicare Standard Rx Option covers both brand-name drugs and generic drugs. A generic drug is approved by the Food and Drug Administration (FDA) as having the same active ingredient as the brand-name drug. Generally, generic drugs work just as well as and usually cost less than brand-name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

### ***What are original biological products and how are they related to biosimilars?***

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the

original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For discussion of drug types, please see the Evidence of Coverage, Chapter 3, Section 3.1, "The 'Drug List' tells which Part D drugs are covered."

### ***Are there any restrictions on my coverage?***

Some covered drugs have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization (PA):** The Medicare Standard Rx Option requires you (or your prescriber) to get prior authorization for certain drugs. This means that you will need to get approval from the Medicare Standard Rx Option before you fill your prescriptions. If you don't get approval, the Medicare Standard Rx Option may not cover the drug.
- **Quantity Limits (QL):** For certain drugs, the Medicare Standard Rx Option limits the amount of the drug that will be covered. For example, the Medicare Standard Rx Option covers 30 pills per 30 days for Januvia. If your prescription is for more, OptumRx will contact your doctor to determine whether more than one per day will be covered. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy (ST):** In some cases, the Medicare Standard Rx Option requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, the Medicare Standard Rx Option may not cover Drug B unless you try Drug A first. If Drug A does not work for you, the plan will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online a document that explains our prior authorization

and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask the Medicare Standard Rx Option to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section "How do I request an exception to the Medicare Standard Rx Option Formulary?" on page iv, for information about how to request an exception.

### ***What if my drug is not on the formulary?***

If your drug is not included in this formulary (list of covered drugs), you should first contact OptumRx and ask if your drug is covered. This document includes only a partial list of covered drugs, so the Medicare Standard Rx Option may cover your drug. For more information, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you learn that the Medicare Standard Rx Option does not cover your drug, you have two options:

- You can ask OptumRx for a list of similar drugs that are covered by the Medicare Standard Rx Option. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by the plan.
- You can ask the plan to make an exception and cover your drug. See below for information about how to request an exception.

### ***How do I request an exception to the Medicare Standard Rx Option Formulary?***

You can ask the Medicare Standard Rx Option to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover your drug even if it is not on our formulary. If approved, this drug will be covered at a predetermined cost-sharing level, and you will not be able to ask us to provide the drug at a lower cost-sharing level.

- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, the Medicare Standard Rx Option limits the amount of drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level (if this drug is not on the specialty tier). If approved, this would lower the amount you must pay for your drug.

Generally, the Medicare Standard Rx Option will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug, or applying the restrictions would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask for a tiering or formulary exception, including an exception to a coverage restriction. **When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you or your doctor believes, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

### ***What can I do if my drug is not on the formulary or has a restriction?***

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary. Or you may be taking a drug that is on our formulary, but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor

to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum of a 30-day supply of medication. If coverage is not approved, after your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

### **Emergency transitions and level-of-care changes**

You may have a change in your treatment setting due to the level of care you require. Such transitions may include if you are:

- Admitted to a long-term care facility following an inpatient hospital stay.
- Discharged from a hospital or skilled nursing facility to a home setting.
- Admitted to a hospital or skilled nursing facility from a home setting.
- Transferred from one skilled nursing facility to another and the new facility is serviced by a different pharmacy.
- Discharged from a skilled nursing facility Medicare Part A stay, where payments include all pharmacy charges, and you now need to use your Part D plan benefit.
- Reverted back to standard Medicare Parts A and B coverage after giving up hospice status.

This transition policy applies to drugs that are covered under the Medicare Standard Rx Option and filled at a network pharmacy.

## For more information

For more detailed information about the Medicare Standard Rx Option prescription drug coverage, please review your *Evidence of Coverage for the Medicare Standard Rx Option* and other plan materials. If you have questions about the Medicare Standard Rx Option, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages. If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227), 24 hours a day, 7 days a week. TTY users should call 1-877-486-2048. Or visit [medicare.gov](http://medicare.gov).

## Medicare Standard Rx Option Abridged Prescription Drug Formulary

The abridged formulary that begins on page 1 provides coverage information about some of the drugs covered by the Medicare Standard Rx Option.

If you have trouble finding your drug in the list, turn to the Index that begins on page 17.

**Remember:** This is only a partial listing of drugs covered by the Medicare Standard Rx Option. If your prescription is not in this partial formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., ELIQUIS), and generic drugs are listed in lowercase italics (e.g., *meloxicam*).

The information in the Requirements/Limits column tells you if the Medicare Standard Rx Option has any special requirements for coverage of your drug.

## WHAT THE ABBREVIATIONS MEAN

**B/D:** This prescription drug has a **Part B versus Part D administrative prior authorization requirement**. This drug may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

**NDS: Non-Extended Day Supply.** This prescription drug is not available for an extended day's supply under the Medicare Standard Rx Option.

**PA: Prior Authorization.** You or your physician need to get approval from the Medicare Standard Rx Option before you fill this prescription. If you don't get approval, the Medicare Standard Rx Option may not cover the drug. See page iv for more information.

**QL: Quantity Limit.** The Medicare Standard Rx Option limits the amount of this drug that will be covered. See page iv for more information.

**ST: Step Therapy.** The Medicare Standard Rx Option requires you to first try another drug to treat your medical condition before we will cover this one for that condition. See page iv for more information.

# 2025 Medicare Standard Rx Option

## **DEDUCTIBLE**

- You must pay the annual deductible of \$590 before the Medicare Standard Rx Option pays any portion of your brand-name or specialty prescription drug costs.

---

## **PREFERRED GENERIC DRUGS (TIER 1)**

- In Initial Coverage, you'll pay a maximum of \$6 for up to a 30-day supply (and a maximum of \$18 for a 31- to 90-day supply).
- In Catastrophic Coverage, you will have no cost sharing.

---

## **NON-PREFERRED GENERIC DRUGS (TIER 2)**

- In Initial Coverage, you'll pay a maximum of \$15 for up to a 30-day supply (and a maximum of \$45 for a 31- to 90-day supply).
- In Catastrophic Coverage, you will have no cost sharing.

---

## **PREFERRED BRAND-NAME DRUGS (TIER 3)**

- In Initial Coverage, you'll pay 25% of the cost.
- In Catastrophic Coverage, you will have no cost sharing.

## **NON-PREFERRED BRAND-NAME DRUGS (TIER 4)**

- In Initial Coverage, you'll pay 30% of the cost.
- In Catastrophic Coverage, you will have no cost sharing.

---

## **SPECIALTY DRUGS (TIER 5)**

- In Initial Coverage, you pay 25% of the cost.
- In Catastrophic Coverage, you will have no cost sharing.
- Specialty drugs are limited to a 30-day supply.

### Multi-Language Insert

#### Multi-language Interpreter Services

**English:** We have free interpreter services to answer any questions you may have about our health or drug plan. To get an interpreter, just call us at 1-800-773-7725. Someone who speaks English/Language can help you. This is a free service.

**Spanish:** Tenemos servicios de intérprete sin costo alguno para responder cualquier pregunta que pueda tener sobre nuestro plan de salud o medicamentos. Para hablar con un intérprete, por favor llame al 1-800-773-7725. Alguien que hable español le podrá ayudar. Este es un servicio gratuito.

**Chinese Mandarin:** 我们提供免费的翻译服务，帮助您解答关于健康或药物保险的任何疑问。如果您需要此翻译服务，请致电 1-800-773-7725。我们的中文工作人员很乐意帮助您。这是一项免费服务。

**Chinese Cantonese:** 您對我們的健康或藥物保險可能存有疑問，為此我們提供免費的翻譯服務。如需翻譯服務，請致電 1-800-773-7725。我們講中文的人員將樂意為您提供幫助。這是一項免費服務。

**Tagalog:** Mayroon kaming libreng serbisyo sa pagsasaling-wika upang masagot ang anumang mga katanungan ninyo hinggil sa aming planong pangkalusugan o panggamot. Upang makakuha ng tagasaling-wika, tawagan lamang kami sa 1-800-773-7725. Maaari kayong tulungan ng isang nakakapagsalita ng Tagalog. Ito ay libreng serbisyo.

**French:** Nous proposons des services gratuits d'interprétation pour répondre à toutes vos questions relatives à notre régime de santé ou d'assurance-médicaments. Pour accéder au service d'interprétation, il vous suffit de nous appeler au 1-800-773-7725. Un interlocuteur parlant Français pourra vous aider. Ce service est gratuit.

**Vietnamese:** Chúng tôi có dịch vụ thông dịch miễn phí để trả lời các câu hỏi về chương sức khỏe và chương trình thuốc men. Nếu quý vị cần thông dịch viên xin gọi 1-800-773-7725 sẽ có nhân viên nói tiếng Việt giúp đỡ quý vị. Đây là dịch vụ miễn phí.

**German:** Unser kostenloser Dolmetscherservice beantwortet Ihren Fragen zu unserem Gesundheits- und Arzneimittelplan. Unsere Dolmetscher erreichen Sie unter 1-800-773-7725. Man wird Ihnen dort auf Deutsch weiterhelfen. Dieser Service ist kostenlos.

**Korean:** 당사는 의료 보험 또는 약품 보험에 관한 질문에 대해 드리고자 무료 통역 서비스를 제공하고 있습니다. 통역 서비스를 이용하려면 전화 1-800-773-7725 번으로 문의해 주십시오. 한국어를 하는 담당자가 도와 드릴 것입니다. 이 서비스는 무료로 운영됩니다.

**Russian:** Если у вас возникнут вопросы относительно страхового или медикаментного плана, вы можете воспользоваться нашими бесплатными услугами переводчиков. Чтобы воспользоваться услугами переводчика, позвоните нам по телефону 1-800-773-7725. Вам окажет помощь сотрудник, который говорит по-русски. Данная услуга бесплатная.

**Arabic:** إننا نقدم خدمات المترجم الفوري المجانية للإجابة عن أي أسئلة تتعلق بالصحة أو جدول الأدوية لدينا. للحصول على مترجم فوري، ليس عليك سوى الاتصال بنا على 1-800-773-7725. سيقوم شخص ما يتحدث العربية بمساعدتك. هذه خدمة مجانية.

**Hindi:** हमारे स्वास्थ्य या दवा की योजना के बारे में आपके किसी भी प्रश्न के जवाब देने के लिए हमारे पास मुफ्त दुभाषिया सेवाएँ उपलब्ध हैं। एक दुभाषिया प्राप्त करने के लिए, बस हमें 1-800-773-7725 पर फोन करें। कोई व्यक्ति जो हिन्दी बोलता है आपकी मदद कर सकता है। यह एक मुफ्त सेवा है।

**Italian:** È disponibile un servizio di interpretariato gratuito per rispondere a eventuali domande sul nostro piano sanitario e farmaceutico. Per un interprete, contattare il numero 1-800-773-7725. Un nostro incaricato che parla Italianovi fornirà l'assistenza necessaria. È un servizio gratuito.

**Portuguese:** Dispomos de serviços de interpretação gratuitos para responder a qualquer questão que tenha acerca do nosso plano de saúde ou de medicação. Para obter um intérprete, contacte-nos através do número 1-800-773-7725. Irá encontrar alguém que fale o idioma Português para o ajudar. Este serviço é gratuito.

**French Creole:** Nou genyen sèvis entèprèt gratis pou reponn tout kesyon ou ta genyen konsènan plan medikal oswa dwòg nou an. Pou jwenn yon entèprèt, jis rele nou nan 1-800-773-7725. Yon moun ki pale Kreyòl kapab ede w. Sa a se yon sèvis ki gratis.

**Polish:** Umożliwiamy bezpłatne skorzystanie z usług tłumacza ustnego, który pomoże w uzyskaniu odpowiedzi na temat planu zdrowotnego lub dawkowania leków. Aby skorzystać z pomocy tłumacza znającego język polski, należy zadzwonić pod numer 1-800-773-7725. Ta usługa jest bezpłatna.

**Japanese:** 当社の健康 健康保険と薬品 処方薬プランに関するご質問にお答えするため に、無料の通訳サービスがあります。通訳をご用命になるには、 1-800-773-7725 にお電話ください。日本語を話す人 者が支援いたします。これは無料のサービスです。
